

**Objections**

- I. Claims 1-15 drawn to an *unauthorized use of a software product on a host computer*, associated with a *program ID* classified in class 380, subclass 202.
- II. Claims 16-21 drawn to a *distributing credits through a licensing system to a host computer system*, associated with the said *licensing system* processing said credits classified in class 705, subclass 53.

**Response**

Applicant hereby requests to consider the Claims 16-21. The Claims 1-15 will be filed through a different application. Applicant also requests to give a priority of the application in the subsequent patent application reviews.
